Field	Description
First name	John
Last name	Bernau
Institutional affiliation	Emory University
Position	Faculty
Institution type	Academic
Previous JSTOR details	Request ID: 9e0ca2f5-dea3-4893-9343-c5d9af246d6f Created: 12/17/2025, 2:09 PM My TXT file had spaces inserted between item_ids. My apologies. I have removed them and attached the up dated TXT file here: "bernau_request_ids2.txt"
Project description	My first publication used JSTOR's data for research in 2018 (https://journals.sagepub.com/doi/10.117 7/2378023118809264) and examined the history of sociology publishing. My current project is a stud y of the idea of "social construction" in sociology. I collected the first round of data at the beginning of the year (2025) via Constellate before the sunset (conference presentation available here: https:// johnabernau.com/presentation/scr_present/scr_review#/title-slide). After submitting the paper to T he American Sociologist, the editors have requested I include data from other journals (revision due 2/1/26). Following the new instructions, I downloaded the metadata file and selected a list of 79 jour nals to include (N = 175,067 articles). I exported the item_ids and attached the TXT file above. I inten ded to create descriptive counts of specific word frequencies over time. Ngram format for each artic le works well, or full text. This research is intended for publication in a peer-reviewed journal.
Grant details	No
Key researchers	John A. Bernau, PhD, Director of Digital Scholarship & McDonald Research Scholar, john.bernau@emor y.edu, Emory University
Third party data access	No
LLM details	No
Results sharing	Journal article, Conference presentation
Product development	No
Agree to share progress?	Yes
Agree to destroy data?	Yes
